Atyeh Zeighami

Artist

PROFILE

Profile

BIOGRAPHY

Atyeh was born in 1987 in Iran. Having known her passion since she learned the word "Art". When she was a child her mother, also a talented artist, taught her how to think like an artist. She has graduated as a distinguished student with an MA degree from the University of Art & Architecture. Since 2015, she has been recognized with many national and international awards.

Atyeh creates a distinct voice with refreshing originality. Her artworks either depict poems or invoke the softest emotions. She believes in art as the purest form of communication. As she has quoted "Artist creates what she perceives. I love to paint in prose, poetry, and metaphor. Some artists paint to live, I live to paint. I see my works as musical compositions so I paint things that might not appear together in real life, but in my mind, they could."

Her artistic style is a combination of Persian elements with her individual vision. She uses the symbols that go beyond geographical boundaries and cultural differences to send her spiritual message. She brings us a new perspective to see the world.

In 2017, Atyeh was one of the sixty artists to be selected by the French Art Magazine 'Heroin'. Atyeh has recently found her own satisfy also opened her studio to students. Her commitment to art has yet to be fulfilled.
